

Property

From pipelines in the North Sea to paper plants in Brazil, every business faces a unique set of risks and hazards. With global capacity, the ACE Group can tailor products to meet customers' needs.

Product Highlights

ACE's property professionals know industry best practices and how to apply them. In addition, the ACE team offers reliable advice on a variety of protection and hazard topics, including process management, unusual hazards identification, expected loss calculations and more. ACE has extensive experience and capacity in primary, excess and full risk property insurance including:

- Boiler and machinery/machinery breakdown
- Building and construction, including erection all risk and contractors all risk
- Business interruption
- Catastrophe perils
- Difference in conditions
- Electronic equipment/data protection
- Event cancellation
- Excess/specialty products
- Multinational/global property programmes
- Property engineering

Special Features

ACE's property-specific underwriting team combines decades of experience, latest technology, analytical methods and the ability to listen to client needs in order to offer a more comprehensive level of protection. Special features include:

- Cover for physical assets and business interruption for any physical loss, destruction or damage not otherwise excluded
- Options tailored to suit each specific customer
- Limited peril options (e.g. earthquake and wind only)
- Short-term and multi-year coverage periods
- AAA Fire Safety Risk Management Rating Programmes
- Global network of risk management engineers
- ACE's understanding of and presence in the world's many markets provides a valuable resource for multinational clients. This includes familiarity with local industry codes and work practices.
